na = not applicable; separate data for federally financed basic research, applied research, and experimental development were not collected for these years.

S&amp;E = science and engineering.

<sup>a</sup> Totals for FYs 1953–2009 represent R&D expenditures in S&E fields only. Beginning in FY 2010, totals and type of R&D data include R&D expenditures in S&E fields and non-S&E fields.<sup>b</sup> FY 1978 data are estimated based on data collected from doctorate-granting institutions only.**Note(s):**

Type of R&D estimation procedure was revised for FY 1998 and later years; hence, these data are not directly comparable to data for FY 1997 and earlier years. Prior to FY 2010, R&D expenditures by type of R&D were based on percentage estimates of basic research provided by universities and colleges. Beginning in FY 2010, institutions were asked for dollar amounts of federally funded and nonfederally funded R&D expenditures for basic research, applied research, and experimental development. Because of rounding, detail may not add to total.
